About Me

With 3 months of hands-on experience in Node.js development, I specialize in creating robust APIs using technologies like Node.js, Express.js, and Sequelize. Proficient in JavaScript, I also have a grasp of project management tools like GitHub. Eager to learn and grow, I am seeking a position in an organization where I can contribute my skills, enhance my technical capabilities, and further develop my professional and interpersonal expertise. My goal is to be a valuable team member, actively contributing to the success of the organization while continuing to expand my knowledge and skill set.

Skill

- JavaScript
- Node.js
- Vs code
- Express
- Css
- Npm
- Postman
- Sequelize
- Html
- React
- Xampp
- Axios
- Mysql
- bootstarp
- Git,GitHub
- Etc

Projects

Brand 24 | build on node api

Language | JavaScript

As a Node API developer at Brand24, I specialize in JavaScript, MySQL, and utilize technologies like Express.js, Sequelize, Bcrypt, JsonWebToken, Joi, and Cors. Proficient in tools like VS Code, Postman, and Git bash, I focus on developing and updating APIs. I have hands-on experience in creating an E-Commerce API following RESTful standards, aiming to maximize customer reach and boost sales and profitability. My work involves facilitating buying and selling goods, contributing to the success of the business.

Foodzone| build on node api

Language | JavaScript

As a Node API developer at Foodzone, I specialize in JavaScript, MySQL, and utilize technologies like Express.js, Sequelize, Bcrypt, Jwt, nodemailer, and Joi. Proficient in VS Code, Postman, and Git bash, I focus on developing and updating APIs. I've crafted a Food Ordering API following RESTful standards, prioritizing an optimal customer experience. With permission-based authentication, the API efficiently manages tasks for customers and admins, supporting the buying and selling of food items data transmission over the internet.
